The SDSN mobilizes the world's knowledge community for science-based solutions for sustainable development. The SDSN's programs operate at the intersection of science, policy, and development practice with the shared focus of maximizing SDG achievements at the global, regional, national, and local levels. The UN Sustainable Development Solutions Network (SDSN) works under the auspices of the UN Secretary-General to mobilize the world's universities, think tanks, and national laboratories for action on the Sustainable Development Goals (SDGs) and the Paris Agreement; empower societies through free online education; and translate scientific evidence and ideas into solutions and accountability.
